Read and record times using o'clock and half past

You can use this template to make your own clock to help you read the times.

Worksheet 1:

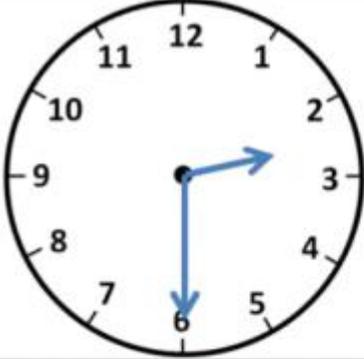

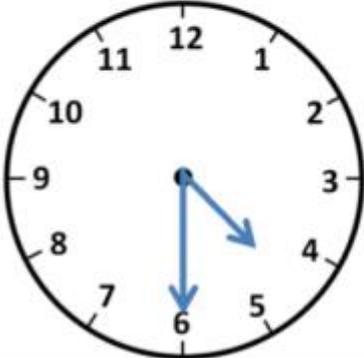

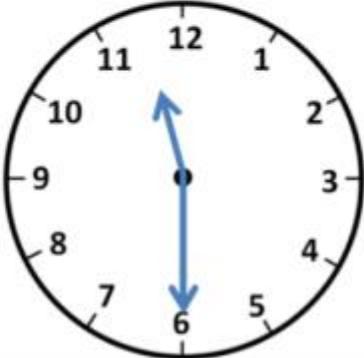

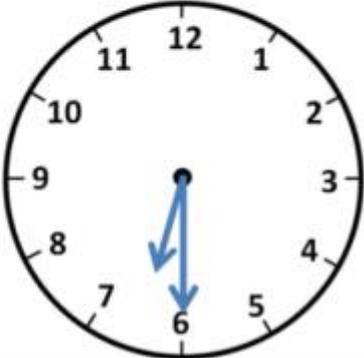

1. What does the long hand represent (show)?

2. What does the short hand represent (show)?

3. Read and write down the times using the o'clock.

		
2 o'clock		
		

4. Read and write the times using half past.

		
Half past 2		
		

5. What will the time be if the long hand is on 6 and the short hand is on 4?

Read the time in 5 minute intervals

Worksheet 1:

Today, we will be learning to read the time in 5-minute intervals. When looking at the time in 5-minute intervals, we count in 5s to know how many minutes have passed.

<https://www.youtube.com/watch?v=jGtBYUQKF4M>

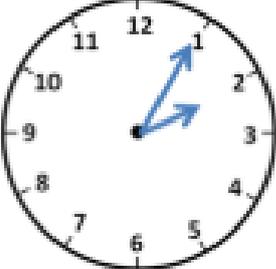

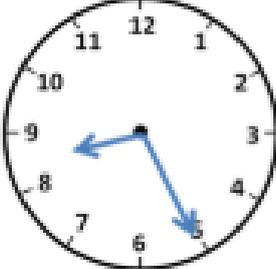

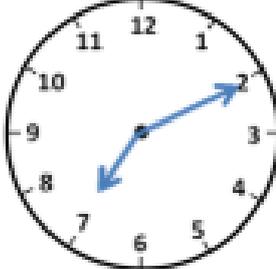

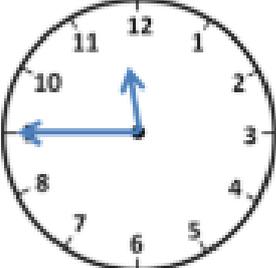

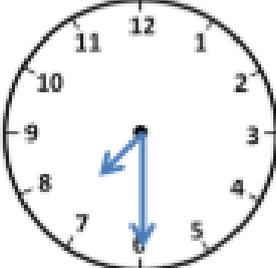

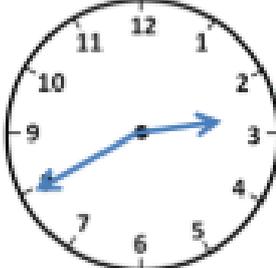

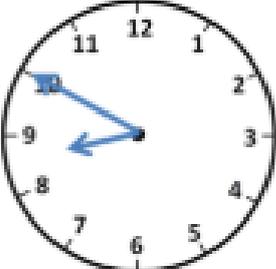

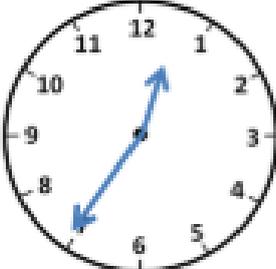

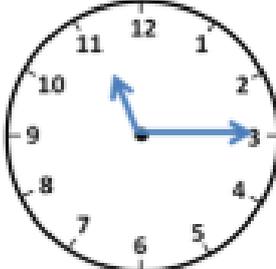

<https://www.youtube.com/watch?v=W47g3FMFKJU>

Example: The minute hand is at 12 on the first clock and the hour hand is on 10. So the time is 10 O'clock. On the second clock, the minute hand is pointing at 1. 5 minutes have passed, so it is now 5 minutes past 10.

Work out:

1. Read and write the times.

		
5 past 2	past	past
		
		

2. What is the time if the minute hand is on 2 and the hour hand is on 5?

3. Tom says "If the minute hand is on 4 and the hour hand is on 1, the time is 25 past 1." Is Tom correct?

Explain your answer.

Read and record the time using quarter past and quarter to

Worksheet 1:

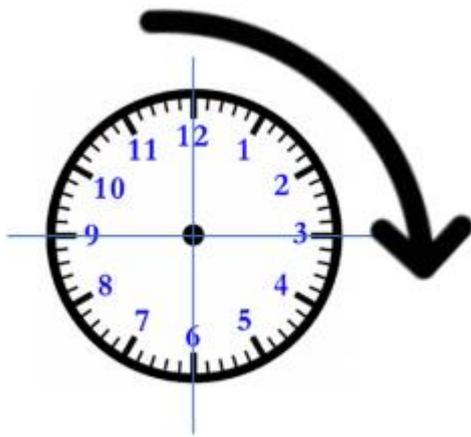

Watch these videos to understand how to tell the time using quarter past and quarter to.

<https://www.youtube.com/watch?v=Pht7dTIMOVA>

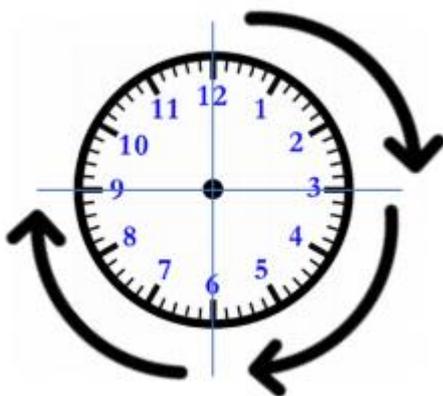

<https://www.youtube.com/watch?v=9UoJA7hJnZE> – quarter past

<https://www.youtube.com/watch?v=0eAyvTclkWQ> – quarter to

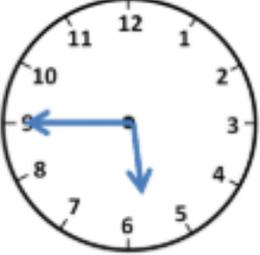

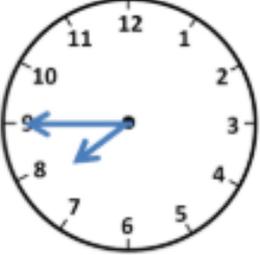

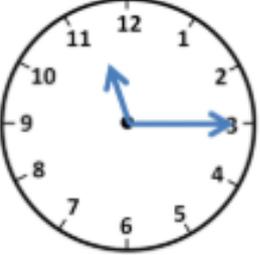

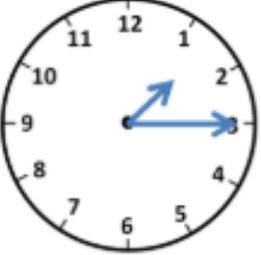

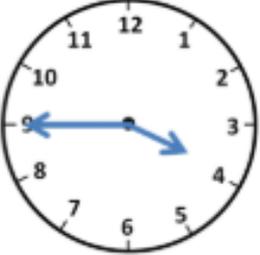

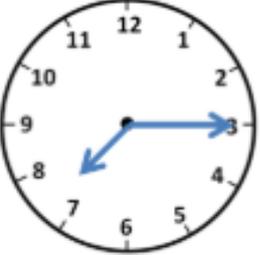

Quarter past is 15 minutes past.

Quarter to is 15 minutes until the next hour or to the next hour. When the minute hand goes around the clock in 3 quarters, or 45 minutes past, it is 15 minutes to the next hour or quarter to.

1. Read and write the correct times using quarter past and quarter to.

		
Quarter to 6		
		
		

2. If the hour hand is at 7 and the minute hand is at 3, what would the time be?

3. The minute hand is pointing to 9 and the hour hand is pointing to 1. What is the time?

4. Josh has two hours to get ready for a party. He starts getting ready at quarter past 1. What time will he be ready?

5. Connor says, "If the minute hand is pointing at 9 and the hour hand is on 6, the time is quarter to 6." Is he correct?

Explain your answer.

Solving word problems involving time

Worksheet 2:

1. Amy lost her jacket in school on Monday. She found her jacket 3 days later (including Monday). What day did she find her jacket?
2. Abi starts baking cupcakes at half past 3. It takes 30 minutes to finish baking. What time will the cupcakes finish baking?
3. Kayse went to the shop at quarter past 6. He came back 15 minutes later. What time did he come back?
4. Harry leaves his house at 20 past 8. It takes him 20 minutes to walk to school. What time does he arrive at school?
5. Sam went swimming on Sunday. He went again on Friday. How many days later did he go swimming again?
6. Lilly started her new school in January. She has been there for 4 months. What month is it?
